INVESTIGATE THE INJUSTICE

Troy Anthony Davis, who is on Georgia's death row, could soon face a fourth execution date. Yet no jury has ever heard the compelling new evidence that can prove his innocence. We call upon you, our elected officials, to investigate this case. A man's life hangs in the balance. Civil rights hang in the balance. Justice hangs in the balance.

President Obama, Attorney General Eric Holder, District Attorney of Chatham County Larry Chisolm: You have the power to right this injustice. We, the signers below, urge you to do so.
